

MRA WEB APP

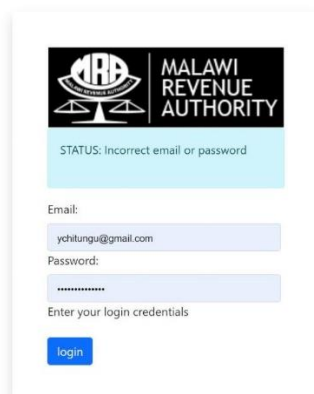

The database for authentication and storing data is located on MRA servers and linked to through a webservice and API-key.

1. LOGIN SCREEN

When you hit the URL, you will be greeted by this login below

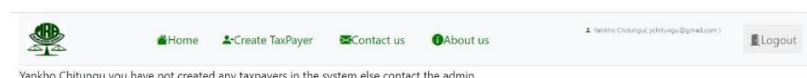

If the details are not correct user gets the following status message

2. HOME

The data shown is only that entered by that user, so initially this is the screen they are greeted with when it's the first time.

If the user already added some entries into the system then they will show up on the home screen as shown below.

List of Taxpayers You Created In The System							
#	TPIN	Business Certificate Number	Trading Name	Registration Date	Phone Number	Email	Location
1.	20203030	MBRS123456	yankho fabrics	2021/11/17	0995673231	yankho@gmail.com	limbe
